

## **Rialto Energy**

Rialto Energy has encountered more hydrocarbon shows while drilling the Gazelle-P3 ST well in block CI-202, offshore Ivory Coast.

The shows were encountered in the Lower Cenomanian section. Last week, the well encountered shows in the Upper Cenomanian.

The Gazelle-P3 ST well is the first of a three-well drilling program in CI-202 which is anticipated to take six months to complete, including testing. The well is currently at a depth of 3521m and will be drilled to a total depth of 3685m.
